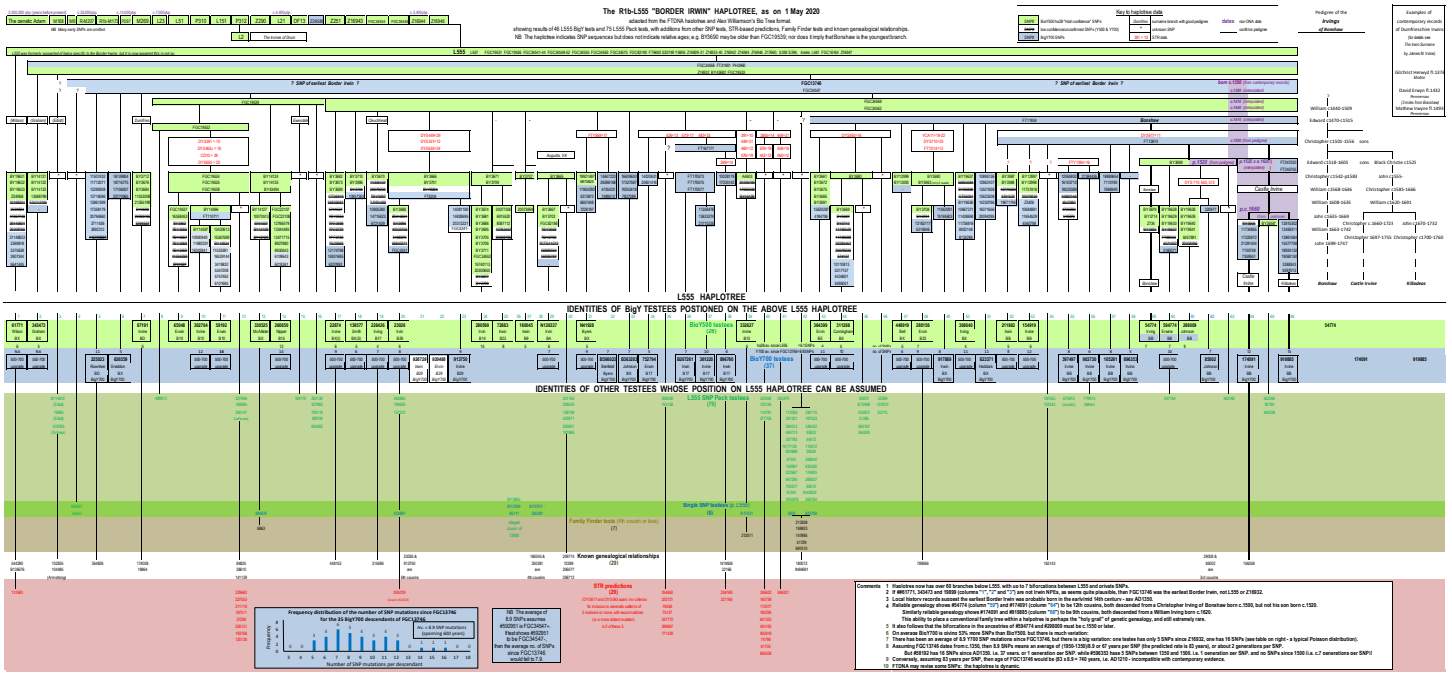
The R1b-L555 "BORDER IRWIN" HAPLOTREE, as on 1 May 2020

adapted from the FTDNA haplotree and Alex Williamson's Bio Tree format

showing results of 46 L555 BigY tests and 75 L555 Pack tests, with additions from other SNP tests, STR-based predictions, Family Finder tests and known genealogical relationships.


NB The haplotree indicates SNP sequences but does not indicate relative ages; e.g. BY36690 may be older than FGC129539, nor does it imply that Borshaw is the youngest branch.
